ARCHITECT OF TIMELESSNESS

When I am looking for fresh ideas or need to recharge, I have to move. Daily life is an endless source of inspiration to me. I read a book, visit my favourite shops or go on a nice trip, and my soul is filled with new energy and impressions.

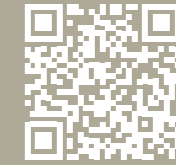

My favourite item is COCO. This collection includes a bench that can be used as a coffee table, pouf, or daybed, thanks to the variety of sizes available.

It's a custom-made piece that is incredibly versatile. You can sit on it, place books on it, rest your feet on it, put it in the center of a room, or tuck it to the side. It's very adaptable to any space. Additionally, it is exceptionally soft as it is made with one of our many fabric options. I particularly like the low and wide bench version, so I can lounge in the sofa and rest my feet on it ;)

Quality is at the heart of it all. Although we have been an established name for years, we want to keep a fresh perspective. We are always looking for new ways to be more mindful about the way we create, improving the premiumness of our products and producing more basic timeless collections. It is our responsibility to provide an offering that is right for our customers today and tomorrow.

Fabrics

▼ Sofa Lulu - Fabric Oatmeal

Easy to clean

At the production stage, the fibres are covered with a special finish that protects the fabric from dirt penetration. Thanks to this, all stains are quickly and efficiently cleaned. Check our care instructions and products on page 54.

Pet friendly fabrics

The fabrics from this group experienced special laboratory tests to check resistance to snagging caused by scratching. They are very durable and easy to clean.

Liquid-repelling surfaces

A technology of covering the fabric with a special hydrophobic coating that effectively avoids the absorption of spilled liquids, leaving drops on the surface of the material.

The environment in our mind

Recycled fabrics demonstrate our planet's care by sustainably cutting water and electricity use, and lowering CO² emissions.

Stonewashed linen

In this refined process, the fabric undergoes a stonewash treatment (effectively washed in a drum with stones), becoming exceptionally soft and acquiring a gently worn texture that enhances its relaxed, casual appeal.

Thanks to the pre-wash, the fabric is so-called "pre-shrunk". This creates minimal residual shrinkage during cleaning.

Who are we to set the rules?

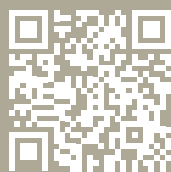

We are creators of soul objects.
Designers of authenticity.

We embrace the unique and quirky.

We embrace the soul story.
Whether you are creating one for yourself,
for your business, or for your clients.
